

EXAMFORM OO RECOGNITION ASSISTENT EXPERT OOO

Welcome to the exam assignment photo recognition UXO.

During this assignment, photos of 8 OO are shown, of which you must name the main type. You take the exam on the issued Examination Form OO recognition. At least 8 of the 16 main types are tested in the exam.

The photo recognition assignment, together with the field recognition assignment, forms the examination component OO recognition. In total, the main types of 15 OO must be named. 10 points are awarded for each correctly recognized OO. The total number of points to be earned is 150 points and the pass mark is set at 120 points.

The time available for both parts is 60 minutes.

In the table on your Exam form, the numbers of the OO shown are on the horizontal axis. In the vertical axis you may tick the correct main type for each OO. Tick only one main type per OO!

After the exam, you can hand in the completed form to the exam leader and then leave the exam room quietly and peacefully. The General Examination Regulations apply to administering the exam.

In addition, the following rules must be observed during the exam:
No resources and documentation may be used during the exam.

The field recognition examination assignment takes place at the practical examination location outside. You will be instructed by the exam leader about the assignment.
